Dear Students:

Libraries are wonderful places in which to be lost. Although they are thought of as quiet places, they are truly bubbling with excitement. Books can create moods; many will make you laugh, some will make you cry.

Adventure is only an arms length away, and new friends are waiting for you between the covers of books. If you want to find a new hobby, travel to far away places, meet interesting people, or sail a ship with a Captain, then visit your library often.

Sincerely yours,

John H. Chafee
